

CareerCert

At MedTrust we provide you with an online learning platform called CareerCert. This online learning platform has over 2000+ EMS classes on it. They have a mix of both basic and advanced classes for EMT's and Paramedics that are all CAPCE approved to meet the National Registry/State EMS office requirements for your continuing education hours. We provide this to our employees at no cost to you. Please see your @ridemedtrust.com email for an email link to set up your CareerCert profile.

National Registry

It is very important to remember to affiliate with MedTrust on the National Registry Website if you plan on keeping your National Registry up to date. To find MedTrust log onto your national registry profile under "My Certification" and go to affiliations. Select the state to South Carolina and then search for "MedTrust Medical Transport, LLC." Once you have found MedTrust click on *Submit Affiliation Request*. Once you have been approved you will be notified via email.

If you have any questions, please reach out to me via call/text/email.

Thank you,

Scott Worcester
